About Sizzix®

Here at Sizzix® we empower each and every creative personality to explore their artistic potential through our numerous die-cutting and embossing machines, thousands of inspiring designs, plus our range of Making Essentials.

From quilting to papercrafting and upcycling to home décor, we give people of all ages and abilities the opportunity to explore multiple creative pursuits and learn a new skill for life that they can share with loved ones.

Our parent company Ellison® Educational Equipment Inc. was established in 1977, with the Sizzix® brand launching in 2001 as the creative division. We have firmly established ourselves as the industry pioneer and global leader of innovative die-cutting solutions for today's creative community. Through our expansive portfolio of award-winning products, we are able to serve you, our valued trade partners, with unsurpassed quality, innovation and inspiration to empower expression in all. Our new range of Making Essentials including cardstock, fabric, felt, glitter, washi tape and more expand our product portfolio further, offering you a one-stop shop for all your creative product requirements for die-cutting and beyond.

The Sizzix® and Ellison® brands are available in over 100 countries and continue to capture the next generation of creativity.

Making Essentials

A great project starts with great supplies. Our Making Essentials range helps makers bring great ideas to life with a comprehensive selection of materials and supplies designed to support a wide range of making activities. The collection starts with a beautiful selection of paper, felt and fabric - the foundation for any die-cut project.

Embellishments such as Embossing Powders provide just the right personal touch.

For something a little different, Shrink Plastic and Dimensional Domes add new ideas for creativity. Our Iron On Adhesive is a must-have for soft crafts and fashion. We also provide a variety of "behind the scenes" supplies that makers can't live without. Adhesive Sheets, Foam Tape, Stencil Film — these are the everyday staples that makers reach for again and again.

For high quality materials that makers can rely on, Sizzix™ has all the essentials!

Embossing Ink Pad

A must-have for any stamper! Use this ink pad with embossing powder and a heat tool to give stamped images a glossy, dimensional finish.

The Embossing Ink Pad stamps clear and works with any colour of embossing powder to complete your stamped project.

663056 [2]
Permanent Pens

The dual tip pens - one broad and one fine point tip complement the Making Essentials colour palette.

Perfect for adding colour to a wide variety of makes, these alcohol markers will even work on non-porous surfaces such as ceramics and shrink plastic.

Embossing Powders

Our Embossing Powders create a raised effect from any stamped image or phrase when used with our Embossing Pad and Heat Tool.
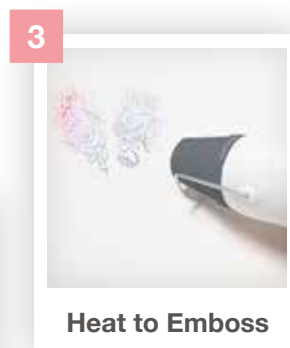

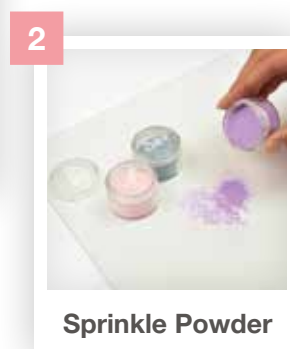

Available in a range of beautiful pastel and bold colours, these high-grade powders provide a smooth, opaque finish with a distinct iridescent shimmer and even match our cardstock and felt packs.

Bigz™ Dies

Creativity can be explored further with our innovative steel-rule Bigz™, which encourage the use of a diverse range of materials. These amazing dies allow you to cut everything from paper and cardstock to chipboard, felt, fabric, balsa wood, magnetic sheets, shrink plastic, leather and much more meaning a wide range of making types can be embraced.

Wafer-Thin Dies

Our Thinlits® and Framelits® dies allow you to cut paper, thin card, metallic foil and vellum. These versatile dies allow you to embellish a wide range of projects, add intricate detail and build up lifelike elements. You can also frame and crop sentiments, photos, stamps and much more.

Textured Impressions™ Embossing Folders

(Including 3-D Folders)

Create a big impression! Our Embossing Folders turn ordinary cardstock, paper, metallic foil and vellum into an embossed, textured masterpiece. Our wide range of folder designs make the perfect addition to our range of occasions and making types such as cards, gift tags, scrapbooks, and much more.

Tools & Accessories

We are pleased to provide a full range of tools and accessories that will enhance every maker's experience. Our machine accessories are designed to the exact specifications of Sizzix® die-cutting machines, including additions that extend the creative possibilities of our products. Along with necessities such as Cutting Pads and Die Brushes, we offer convenient storage options and innovative products like the Sticky Grid Sheets that make working with Thinlits® dies easier than ever.

Our Making Tools support a wide variety of creative undertakings with essential items that belong in every creative kit, like the Glue Gun, a lightweight Heat Tool and a self-healing Cutting Mat. The Paper Sculpting kit is perfect for flower makers and there's even a set of heat-proof tools designed specifically for working with die-cut Shrink Plastic.

Whatever the make, Sizzix has the tools and accessories to support every creative adventure.

662302 - Glue Gun Stand

662354 - Glue Sticks

662301 [1]

Glue Gun

The Sizzix™ Glue Gun is the perfect accessory for a multitude of makes!

Compatible with 7mm glue sticks, the Glue Gun features a precision nozzle perfect for adhering small quantities of glue to any project. The spring back lever provides excellent control when applying glue. This product comes with a UK plug and EU adaptor.

663005 [2]

Glue Gun Accessories

The Glue Gun Accessory kit is the ultimate companion to the Glue Gun.

Designed with the maker in mind, the kit includes a non-stick silicone mat that transforms any surface into a glue friendly area, allowing cool glue to be easily removed. Also included in this kit are caps to protect fingers and a pokey tool and spatula allowing for the spreading or pressing of glue onto surfaces, to avoid direct contact.

Glue Gun Sticks

Hot melt glue sticks are compatible for use with the Sizzix™ Glue Gun and Glue Gun Stand. They are available in a pack of 12 and are 10cm long & 7mm in diameter.

Glue Gun Stand

Protect your work surfaces with our compact Sizzix™ Glue Gun Stand. The foldaway design makes it portable and easy to carry and gives you the ability to create a glue gun friendly surface anywhere. The stand itself can hold 4 x 10cm long & 7mm diameter glue gun sticks, so there is always a glue supply nearby. The stand includes a heat resistant mat that protects the surface when using. It is simple to remove and easy to clean when the glue is cold.

Cutting Mat

The Sizzix™ Cutting Mat is a must-have accessory for any maker.

The double-sided 3 ply mat provides a smooth, self-healing surface so you can be confident that every cut is accurate. Precision measurement grids are printed on both sides of the mat, providing both imperial and metric measurements, as well as a 0-to-90-degree angle guide that takes all the difficulty out of accurate cutting of paper, fabric, felt, chipboard, mat board and other materials.

The Cutting Mat measures 12⅞" x 17⅛" (32.70cm x 43.50cm), big enough to manage larger, scrapbook-sized papers and materials but still fits neatly on your worksurface. At just 3mm thick, it's easy to store or transport for making on the go.
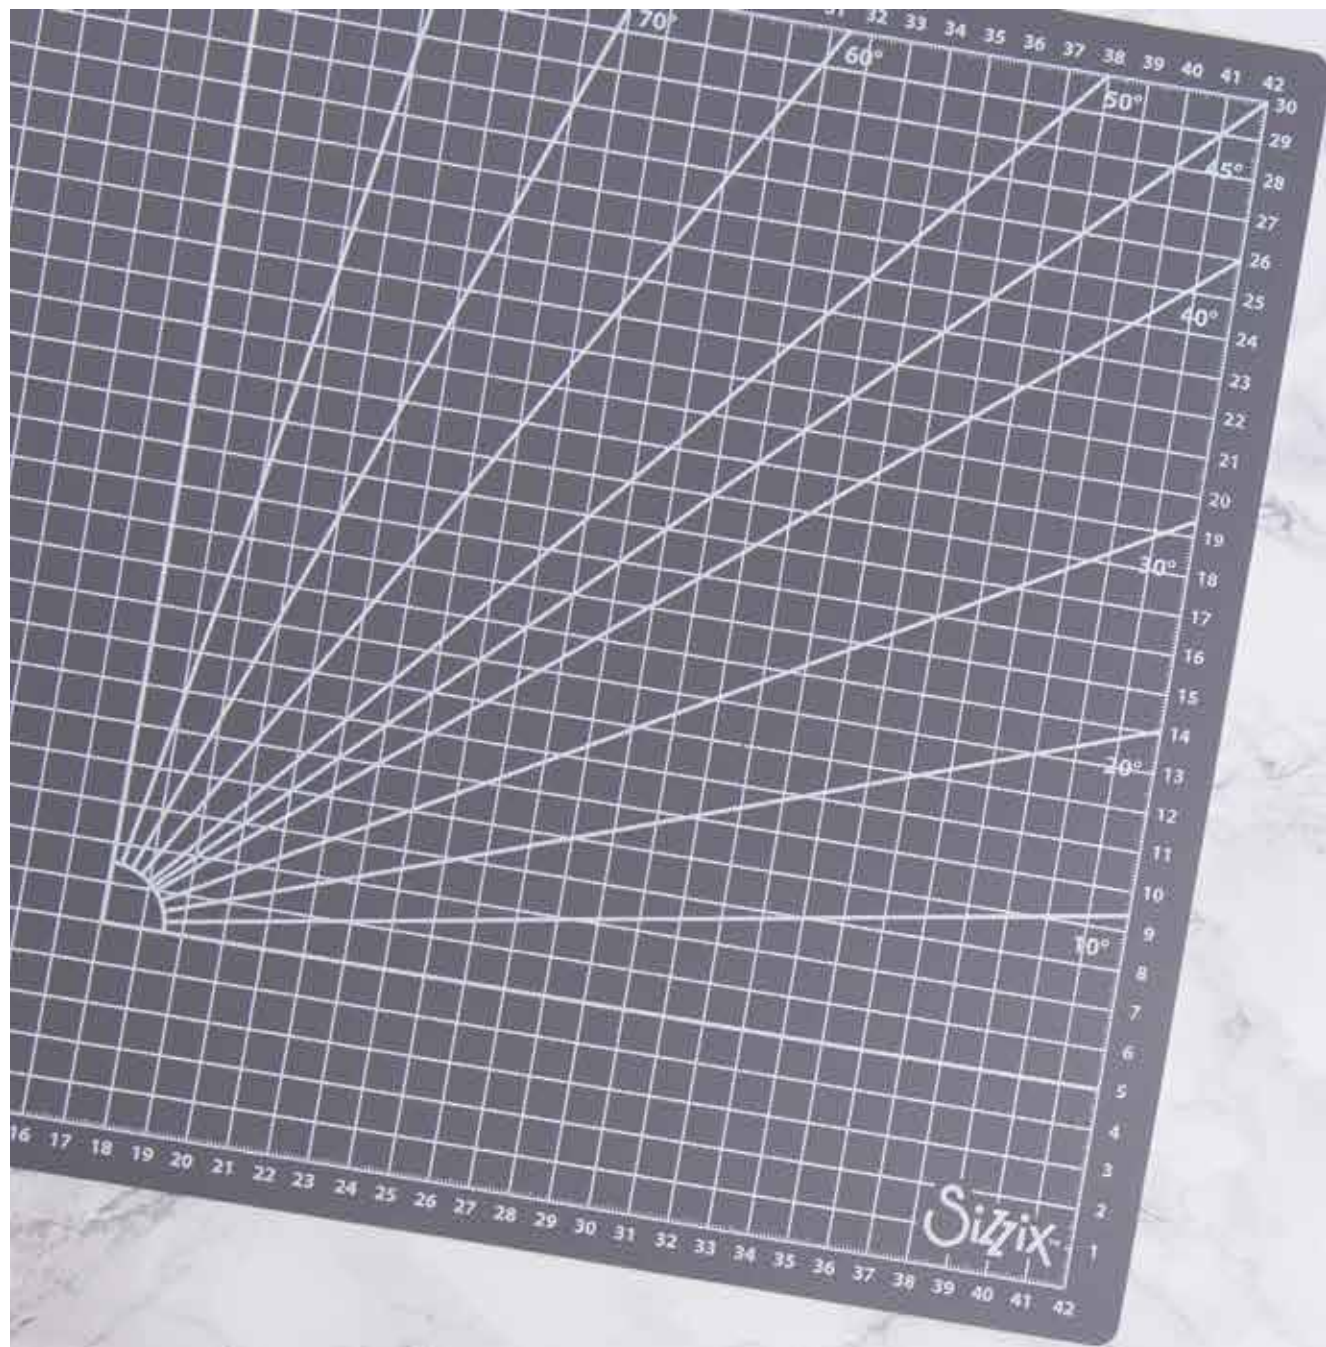

Multi-Tool

The Sizzix™ Multi-Tool with interchangeable heads complements a wide variety of making activities. The item includes a rubberised dual end handle allowing use of two heads at the same time. The Multi-Tool comes with a distress head and craft knife and an end cap is also provided if single ended use is preferred.

Blending Tool

A handy attachment that twists easily onto the ergonomic handle of the Sizzix™ Multi-Tool (sold separately). With an angled sponge head for better visibility and control over your blending, it's perfect for colouring stencils, embossed cardstock and other surfaces. The long-lasting hook-and-loop fastening makes it simple to swap blending sponges when changing colours or mediums. Sponges have a diameter of 3cm and can be washed repeatedly to extend their use. The Blending Tool comes with two blending sponges, and refills can be purchased separately.

Sponge Refills

Blending Tool Sponge Refills are available in packs of 4 and include 2 spare hook-and-loop disks that extend the use of the Blending Tool (sold separately). The blending tool sponges have a diameter of 3cm, and they can be washed repeatedly to extend their use.

Replacement Blades

Mr. Snowman, Colorize™

Take papercraft to the next level with brand new Colorize™ technology from Tim Holtz®.

Colorize™ brings a selection of intricate paper-layering projects which enable you to create more dimensional and professional designs than ever before!

Unique to the world of die-cutting, Colorize™ allows you to create realistic dimension using drop shadows and highlights for amazing detail. From mixed media fanatics to basic papercrafters, Colorize™ is a rewarding new challenge for all, allowing you to bring animated characters and scenes to life!

Step 1: Select Cardstock

Each Thinlits® die is labelled to take the guesswork out of selecting and positioning shades, creating amazing multi-faceted layered results! Separate cardstock based on the recommended colour printed on the back of each die.

Step 2: Apply Adhesive Sheet

Apply Adhesive Sheet (656802), available at Sizzix®, to the back of your cardstock for ease of use when layering and adding the intricate elements.

Step 3: Die-Cut and Separate

Die-cut in order of the numbers labelled on the back of your Thinlits®. Once cut, separate by colour to group your shapes ready for when you assemble your design.

Step 4: Optional Step - Add Depth

Add colour to the edges of your die-cuts to add depth using a darker shade of coloured ink.

Step 5: Follow the Embossing Lines

Each base shape has crease blades which create embossing lines, helping to clearly identify where to place your layers. Use these lines to place mid-tone and highlight cuts.

Assemble each section of the design, using tweezers to peel and stick the adhesive sheet to secure the layers.

Step 6: Assemble Design Elements to Finish

Once you have layered each component, assemble the final design composing all elements together. Finally, place your Colorize™ design on a project of your choice.

ONE OF A KIND

3
Chapter Three

Don't forget our Chapter 3 collection is still available! Full of inspiration for every making style, it contains all the designs you need for the season of creativity, featuring an array of spooky Halloween and festive Christmas dies. This vibrant collection is inspired by folk art, nature and traditional seasonal motifs. You'll find witches and haunted houses, along with snowflakes, reindeer and Santa himself, plus many floral and decorative designs that will keep your creativity flowing all year long.

Versatile Thinlits® and Framelits® die sets come with plenty of mix-and-match options and layering choices for making incredible one-of-a-kind projects. Large, intricate designs are perfect for card fronts, scrapbook pages, beautiful framed décor and more. With our Bigz™ dies, seasonal decorating becomes fast and simple, whether you're whipping up a quick garland of pumpkins or personalising Christmas stockings with unique appliqué. 3-D Textured Impressions™, Texture Fades™ and Impresslits™ Embossing Folders create eye-catching backgrounds and embellishments for gift wrap, handmade tags, favour boxes and more. You'll find dies for making 3-D papercraft ornaments, hand sewn soft toys, party favours and handmade gifts of all kinds.

Make this season one to remember with creative ideas from Sizzix®!

Essentials

Our Essentials range features dies and textures that should be a part of every creative kit. Featuring year-round, seasonal shapes by favourite designers, the range includes a little of everything including basic shapes and alphabets, flowers, leaves, animals, mixed media masks, party decorations, gift boxes and more.

With so many designs to choose from, the versatility of Sizzix® technologies means there are endless possibilities for creativity. Our Thinlits® wafer-thin dies offer intricate shapes with lots of details. Framelits® dies let makers see exactly what they cut, perfect for cutting photos and frames. Bigz™ dies feature bold designs and the ability to cut thicker materials such as chipboard, felt, fabric or leather. Our Textured Impressions™ Embossing folders create dynamic accents for any project.

For cards, scrapbooks and papercrafts, or soft crafts, home décor and fashion accessories, we've got all the basics right here.

Christmas Essentials

This collection of festive favourites is made up of our most popular Christmas designs. With shapes that include snowflakes, winter florals, greenery, reindeer and seasonal wishes, these Christmas essentials are perfect for makers of all abilities to create special handmade items at the most wonderful time of the year!

With the versatility of Sizzix® die-cutting technology, there's plenty of inspiration to be found for a variety of seasonal makes. Our steel-rule Bigz™ Dies can cut through multiple layers of paper at once, making it faster than ever to deck the halls with garlands of snowflakes or poinsettias. Cardmakers will appreciate the variety of our wafer-thin Thinlits® collection for making one-of-a-kind Christmas greetings.

From embellished gift boxes and tags, to personalised stockings to hang by the fire, to hand sewn tree ornaments, 'tis the season for Christmas creativity!

Patchwork

Our die-cutting machines paired with our fantastic range of patchwork dies are the perfect tool for both beginners and experienced quilters. Our steel-rule Bigz™ dies can cut through a variety of fabrics, even cutting multiple layers at once so that every cut piece is precisely the right size.

This is especially useful when making quilts and eliminates the complications many people face when piecing together irregular shapes made with a ruler and rotary cutter. Each die comes with a built-in ¼" seam allowance to make piecing even easier. The collection includes an assortment of basic shapes that can be combined to create a variety of popular and traditional quilt block patterns.

The only limit is imagination!

Don't Miss This Interactive Experience from Sizzix®

With the Sizzix mobile app, your consumers can share, learn and interact with one another, all from the palm of their hand.

The app, which is available for both iOS and Android phones and tablets, allows consumers to participate in the Sizzix community through a personalised, interactive experience. App users can share photos of their makes, follow favourite makers, and like, comment and save submissions by others. They can also post questions, share helpful tips and tricks and earn achievement badges for their activity in the app.

One of the app's most convenient features is the barcode scanner. Users can scan the barcode on Sizzix products and get instant access to inspirational content including project ideas, videos, how-tos and other community content. When a customer sees a product in your shop, they'll be able to scan it with their mobile and discover a whole collection of creative ideas for how to use it. It's a great tool that will help customers make purchasing decisions.

App users can also access a complete list of Sizzix stockists in their area, so that it's even easier than ever for them to find you in order to purchase dies, tools and accessories.

Here's a complete look at everything consumers can do with the app:

- Browse for inspiration, instructions, products and supplies lists
- Watch hundreds of how-to videos featuring Sizzix products
- Upload photos of their own makes, with fun filter options included
- Like and comment on photo uploads from other users, and save their favourites
- Follow favourite makers to stay up to date
- Read and share tips for all kinds of making
- Earn achievement badges for activity in the app, such as commenting and sharing photos
- Scan barcodes on Sizzix products to find inspirational ideas
- Find stockists in their area where they can purchase Sizzix dies, accessories and tools

Right now, the Sizzix app is available in the UK, EU and rest of world regions with launches in The Americas planned for the future.
